

9 February 1954

MEMORANDUM FOR: Colonel White

SUBJECT : Logistics Office Objectives Review,
Second Quarter, Fiscal Year 1954

1. The objectives review for the second quarter of Fiscal Year 1954 indicates the Logistics Office continues to move steadily towards its goal. The review indicates substantial progress has been made towards realistic world-wide requirements and Logistics support. In addition, the review indicates more efficient headquarters and field operations. The objectives for the balance of FY 1954 are, in the main, aimed at the correction of present problems and in anticipation of future problems.

2. I believe the quarterly review would give a better picture of progress and would be of more value if it contained:

- a. The programmed objectives for the fiscal year.
- b. The objectives accomplished in the previous quarters of the programmed year.
- c. The objectives accomplished in the quarter being reviewed.
- d. Programmed objectives not accomplished.

It is suggested that this method, together with a format for presentation, be discussed with the Logistics Office.
